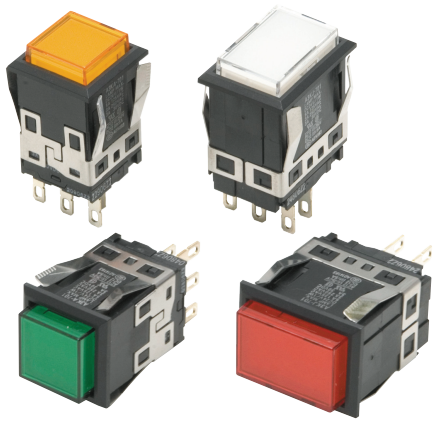
A3K

CSM_A3K_DS_E_4_5

Sense of Touch and Protection Ability Improved over OMRON's Previous Models. Miniature Design Achieved with Body Length of 23 mm.



- Combines miniature design with distinct but soft sense of operation.
- Five colors (red, yellow, green, white, and blue) with LEDs.
- Improved sense of touch with built-in Basic Switch.
- Built-in Basic Switch improves protection over OMRON's previous models.
- Chip LED produces even surface brightness.
- Easy panel mounting from the front.

⚠ Refer to *Safety Precautions for All Pushbutton Switches/ Indicators* and *Safety Precautions* on page 15.

List of Models

Lighted Pushbutton Switches

Appearance	Model
Rectangular 	A3KJ
Square 	A3KA

■ Specifications: Refer to page 10.
■ Dimensions: Refer to page 12.
■ Accessories: Refer to pages 8 to 9.

Model Number Structure

Model Number Legend .....The model numbers used to order sets of Units are illustrated below. One set comprises the Operation Unit (LED built in) and Socket Unit.
For information on combinations, refer to *Ordering Information* on page 3.

(3) (4) (5)

1 - 24E R ..... Single screen

(1) (2) Upper Lower

A3K J - 90 A 2 - 24E RW ..... Horizontal 2-split screen

R (Red)	Upper
W (White)	Lower

(1) Shape of Operation Unit

Symbol	Shape
J	Rectangular
A	Square

(2) Switch Specifications

Standard Load

Symbol	Operation	Contacts
A	Momentary	SPDT
B	Alternate	
C	Momentary	DPDT
D	Alternate	

Microload

Symbol	Operation	Contacts
E	Momentary	SPDT
F	Alternate	
G	Momentary	DPDT
H	Alternate	

- Standard Load
  250 VAC, 3 A
  30 VDC, 3 A
- Microload
  125 VAC, 0.1 A
  30 VDC, 0.1 A
- Minimum applicable load
  5 VDC, 1 mA

▶ **Momentary operation: Self-resetting**
▶ **Alternate operation: Self-holding**

(3) Screen Pattern

Illumination-only models

Symbol	Screen pattern
1	Single screen 
2	Horizontal 2-split screen  (rectangular models only)

The screen patterns listed below can be ordered individually. Refer to page 6 for details.

Vertical 2-split screen

(rectangular models only)

(4) Lighting Method

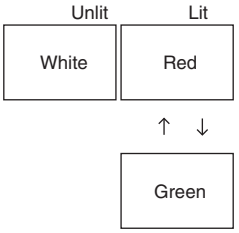
Symbol	Operating voltage
05E	5 VDC
12E	12 VDC
24E	24 VDC

- Only for LED models.

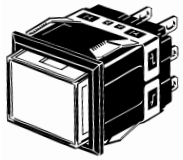
(5) Color of Display

Symbol	Color
R	Red
Y	Yellow
G	Green
W	White
A	Blue
K	Red/green 2-color lighting (rectangular models only)

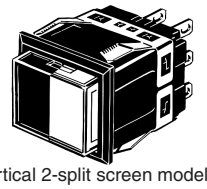
▶ **Red/green 2-color lighting:**



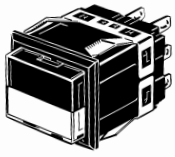
Type



Single-screen models
(rectangular and square models)



Vertical 2-split screen models
(See note 1.)
(rectangular models only)

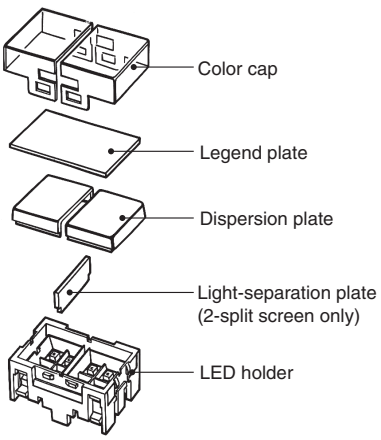


Horizontal 2-split screen models
(rectangular models only)

Note: 1. Vertical 2-split screen models can be ordered only individually. Refer to page 6.
2. A legend plate and LED (with current-limiting resistor) are built into a standard Display.
3. Split-screen color configurations are given with the OMRON mark on the Switch facing down.
4. The built-in legend plate is milk-white in color.

Structure of Split-screen Operation Unit

(Example: Vertical 2-split screen)

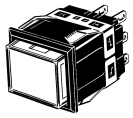


Ordering Information

Sets.....Sets include an Operation Unit (LED built in) and a Switch.
Not all combinations are possible. Ask your OMRON representative for details.

Standard Loads

Rectangular Models



A3KJ

Standard Loads

Screen pattern	Output	Contact type Operation	Standard load (250 VAC, 3 A; 30 VDC, 3 A)		Operation Unit color symbol
			Momentary operation (Self-resetting)	Alternate operation (Self-holding)	
Single screen	SPDT	5 VDC	A3KJ-90A1-05E□	A3KJ-90B1-05E□	Insert a color symbol in □ at the end of the model number. R (red), W (white) Y (yellow), A (blue) G (green), K (red/green)
		12 VDC	A3KJ-90A1-12E□	A3KJ-90B1-12E□	
		24 VDC	A3KJ-90A1-24E□	A3KJ-90B1-24E□	
	DPDT	5 VDC	A3KJ-90C1-05E□	A3KJ-90D1-05E□	
		12 VDC	A3KJ-90C1-12E□	A3KJ-90D1-12E□	
		24 VDC	A3KJ-90C1-24E□	A3KJ-90D1-24E□	
Horizontal 2-split screen	SPDT	24 VDC	A3KJ-90A2-24E□□	A3KJ-90B2-24E□□	□ □ Insert color symbols in □ and □ at the end of the model number. R (red), W (white) Y (yellow), A (blue) Green
	DPDT	24 VDC	A3KJ-90C2-24E□□	A3KJ-90D2-24E□□	

Microloads

Screen pattern	Output	Contact type Operation	Microload (125 VAC, 0.1 A; 30 VDC, 0.1 A)	Operation Unit color symbol
			Momentary operation (Self-resetting)	
Single screen	SPDT	5 VDC	A3KJ-90E1-05E□	Insert a color symbol in the □ at the end of the model number. R (red), W (white) Y (yellow), A (blue) G (green), K (red/green)
		12 VDC	A3KJ-90E1-12E□	
		24 VDC	A3KJ-90E1-24E□	
	DPDT	5 VDC	A3KJ-90G1-05E□	
		12 VDC	A3KJ-90G1-12E□	
		24 VDC	A3KJ-90G1-24E□	
Horizontal 2-split screen	SPDT	24 VDC	A3KJ-90E2-24E□□	□ □ Insert color symbols in □ and □ at the end of the model number. R (red), W (white) Y (yellow), A (blue) G (green)
	DPDT	24 VDC	A3KJ-90G2-24E□□	

Note: Alternate operation models are also available. Refer to page 7 for model numbers.

Individual models: Refer to pages 5 to 7.
(The Pushbutton and Switch can be ordered separately.)

■ Specifications: Refer to page 10. ■ Dimensions: Refer to page 12.
■ Accessories: Refer to pages 8 to 9.

Ordering Information

Sets ..... Sets include an Operation Unit (LED built in) and a Socket Unit.

		12 VDC	A3KA-90G1-12E□	
		24 VDC	A3KA-90G1-24E□	

Note: Alternate operation models are also available. Refer to page 7 for model numbers.

Individual models: Refer to pages 5 to 7.
(The Pushbutton and Switch can be ordered separately.)

■ Specifications: Refer to page 10. ■ Dimensions: Refer to page 12.
■ Accessories: Refer to pages 8 to 9.

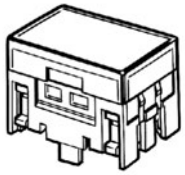
Ordering Information

Ordering Individually ..... Operation Units (LED built in) and Socket Units can be ordered separately. Combinations that are not available as sets can be created using individual Units. Parts can also stored as spares for maintenance and repairs.

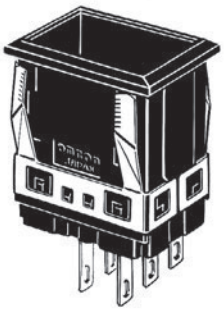
Ordering.....Specify a model number from the following page.

Operation Unit

An LED is built in.



Socket Unit



Ordering set combinations: Refer to pages 3 to 4.

■ Specifications: Refer to page 10. ■ Dimensions: Refer to page 12.
■ Accessories: Refer to pages 8 to 9.

Ordering Information

Approved Standard Ratings

UL (File No. E41515), CSA (File No. LR45258)

Standard Load: 3 A at 250 VAC
5 A at 125 VAC
3 A at 30 VDC
Microload: 0.1 A at 125 VAC
0.1 A at 30 VDC

Note: Certification has been obtained for the Switch Unit.
For detailed information on individual products that have received certification, consult your supplier.

CCC (GB/T14048.5)

Standard Load: 3 A at 250 VAC
4 A at 30 VDC
3 A at 30 VDC
Microload: 0.1 A at 125 VAC
0.1 A at 30 VDC

Ratings

Standard Load

AC resistive load	DC resistive load
3 A at 250 VAC 5 A at 125 VAC	3 A at 30 VDC

Note: The above ratings are from testing under the following conditions:
1) Ambient temperature: 20 ± 2°C
2) Ambient humidity: 65% ± 5%RH
3) Operation frequency: 20 operations/min

Microload

Rating	0.1 A, 30 VDC (resistive load) 0.1 A, 125 VAC (resistive load)
Minimum applicable load	1 mA, 5 VDC

LED-lighted Models

Rectangular Models (A3KJ)

Operating voltage	Rated voltage	Rated current
5 VDC ± 5%	5 VDC	48 mA (18 mA) *
12 VDC ± 5%	12 VDC	20 mA (10 mA) *
24 VDC ± 5%	24 VDC	10 mA (5 mA) *

* Values are for blue illumination.

Square Models (A3KA)

Operating voltage	Rated voltage	Rated current
5 VDC ± 5%	5 VDC	24 mA (10 mA) *
12 VDC ± 5%	12 VDC	24 mA (10 mA) *
24 VDC ± 5%	24 VDC	12 mA (5 mA) *

* Values are for blue illumination.

Characteristics

Operating frequency	**Mechanical**	Momentary-action models: 120 operations/min max. *1
	Electrical	20 operations/min max.
Insulation resistance		100 MΩ min. (at 500 VDC)
Contact resistance	**Standard load**	50 mΩ max. (initial value)
	Microload	50 mΩ max. (initial value)
Dielectric strength	**Between terminals of same polarity**	1,000 VAC, 50/60 Hz for 1 minute
	Between terminals of different polarity	2,000 VAC, 50/60 Hz for 1 minute
	Between current-carrying metal part and ground	2,000 VAC, 50/60 Hz for 1 minute
	Between each terminal and non-current-carrying metal part	2,000 VAC, 50/60 Hz for 1 minute
	Between lamp terminals	1,000 VAC, 50/60 Hz for 1 minute *2
Vibration resistance	**Malfunction**	10 to 55 Hz, 1.5-mm double amplitude *3
Shock resistance	**Destruction**	500 m/s² max.
	Malfunction	200 m/s² max. *3
Durability	**Mechanical**	Momentary operation models: 2,000,000 operations min. Alternate operation models: 200,000 operations min. One operation cycle consists of set and reset operations.
	Electrical	100,000 operations min. (rated load)
Weight		Approx. 10 g
Ambient operating temperature		–10 to 50 °C (with no icing or condensation)
Ambient operating humidity		35% to 85%RH
Ambient storage temperature		–25 to 65 °C (with no icing or condensation)
Degree of protection		IP00
Electric shock protection class		Class II
PTI (proof tracking index)		175
Pollution degree		3 (IEC 60947-5-1)

*1. Alternate-action models: 60 operations/min max.
(One operation cycle consists of set and reset operations.)
*2. The figure is for when no LED is mounted.
*3. Malfunction: 1 ms max.

Operating Characteristics

Operation / Operating Characteristics	Momentary operation	Alternate operation
Operating force (OF) max.	3.92 N	4.90 N
Releasing force (RF) min.	0.49 N	0.294 N
Total travel (TT)	Approx. 3 mm	Approx. 3 mm
Pretravel (PT) max.	2.5 mm	2.5 mm
Lock travel alternate (LTA) min. *	—	0.5 mm

* Alternate operation models only.

Note: 1. Use a mounting panel thickness of t = 1 to 3.3 mm.
2. Unless specified, a tolerance of ±0.4 mm applies for all dimensions.

Safety Precautions

Refer to *Safety Precautions for All Pushbutton Switches/Indicators*.

Precautions for Correct Use

Mounting

- Always make sure that the power is turned OFF before mounting, removing, or wiring the Switch, or performing maintenance. Electric shock or fire may occur.

Wiring

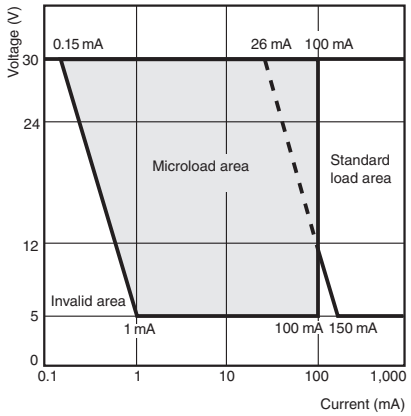
- For wiring, use a wire size that is appropriate for the applied voltage and the supplied current.
  Be sure to perform soldering according to the following conditions. Using the Switch with incomplete soldering may result in errors and heat, which may cause fire.
  1. Manual soldering: Use a soldering iron with a tip temperature of 350°C maximum and complete soldering within 3 seconds.
  2. Dip soldering: Solder at 350°C for 3 s or less.
     Wait for one minute after soldering before exerting any external force on the solder.
- Use non-corrosive liquid rosin as the flux.
- Make sure that the insulating sheath of the wires does not come in contact with the Unit. If wiring is performed with the insulating sheath of the wires in contact with the Unit, use wire with a minimum heat resistance of 100°C.
- After wiring the Switch, make sure that there is a suitable isolation distance.

Operating Environment

- Do not use in locations that are subject to dust, oil, or metal filings, because these may penetrate the interior of the Switch and cause malfunction.

Using Microloads

- Using a standard load switch when a microload circuit is opened or closed may cause wear on the contacts. Use the switch within the operating range. (Refer to the diagram below.) Even when using microload models within the operating range shown below, if inrush current occurs when the contacts are opened or closed, it may cause the contact surface to become rough, and so decrease life expectancy. Therefore, insert a contact protection circuit where necessary. The minimum applicable load is the N-level reference value. This value indicates the malfunction reference level for the reliability level of 60% (λ60) (conforming to JIS C5003).
  The equation $\lambda 60 = 0.5 \times 10^{-6}$/time indicates that the estimated malfunction rate is less than 1/2,000,000 with a reliability level of 60%.



Character Film

- If the character film is to be specially prepared, use heat-resistant film with a maximum thickness of 0.2 mm.

LEDs

- A current-limiting resistor for the LED is built in, so no external resistor is required.
- Do not apply more than the rated current to the LED. Doing so may damage the LED.

Two-color Lighting

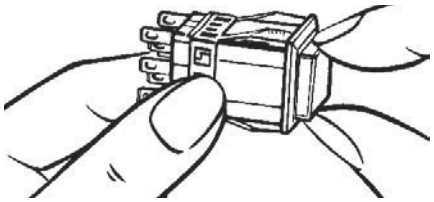
- With two-color lighting, changing the terminal connections enables two-color (red/green) full-surface colored illumination. (Only for models with the Display color symbol K.)
- To light two colors at the same time, connect an external resistors as described in the following table.

Connection / Voltage	Green: L1	Red: L2
5 V	270 Ω (1/2 W)	270 Ω (1/2 W)
12 V	900 Ω (1/2 W)	900 Ω (1/2 W)
24 V	1.8 KΩ (1/2 W)	1.8 KΩ (1/2 W)

Application

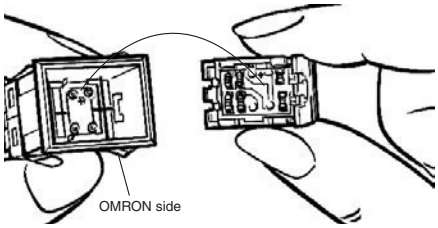
Removing the Operation Unit

- Grasp the groove on the cap surface, and pull it firmly toward you to remove the Unit.
- An Extractor (A3PJ-5080) is available to conveniently remove the Display.



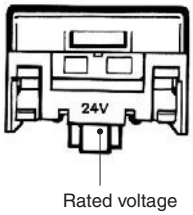
Inserting the Operation Unit into the Socket Unit

- Insert the Operation Unit in the proper direction.
  Insert the Operation Unit so that the "+" indication on the back (PCB) is lined up with the "O+" indication inside the Socket Unit.



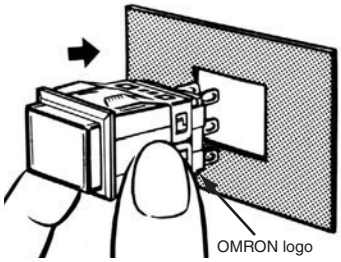
LED Rating

- The LED voltage rating is indicated on the side of the Operation Unit. Use within a range of ± 5%.



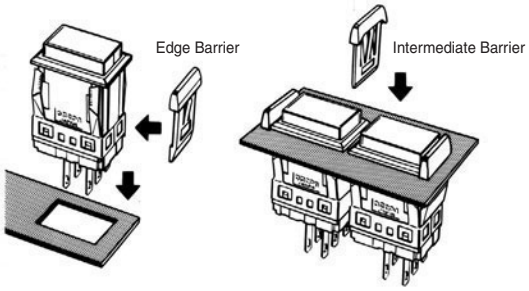
Mounting to the Switch Panel

- Mount the Socket Unit to the panel by inserting it from the front of the panel.
- Mount the Socket Unit so that the OMRON logo is at the bottom.



Barrier Mounting

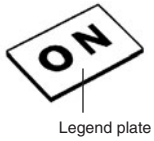
- Place the Edge Barriers on the side of the Socket Unit, and then insert the Socket Unit into the panel.
- Insert the Intermediate Barrier between the Switches after inserting the Socket Units into the panel.



Inscribing Legend Plate Characters

Inscribing

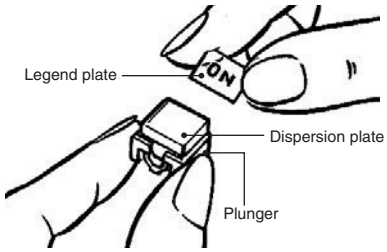
- Inscription depth: 0.5 mm max.
- The legend plate is made of polycarbonate, so apply an alcohol-based paint coating, such as melamine, phthalate, or acrylic resin paint when marking the legend.



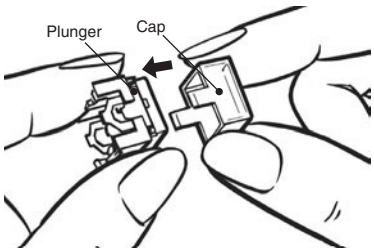
Assembling the Legend Plate (Plunger)

A3KA/M2KA

1. Assemble the dispersion plate to the plunger, and then assemble the legend plate on top.



2. Assemble the color cap.



Terms and Conditions Agreement

Read and understand this catalog.
Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.
(a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
(b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE
PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.
Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.
See http://www.omron.com/global/ or contact your Omron representative for published information.

Limitation on Liability; Etc.
OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.
Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.
Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.
NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.
Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.
Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.
Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions.
Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

2022.1

In the interest of product improvement, specifications are subject to change without notice.
